

THE STAR NEWS

March newsletter

STAFF SPOTLIGHT:

Meet Jennifer!

Jennifer is a CNA here at Eastern Star since April but previously worked in the Assisted Living Facility as an AL Attendant. She has been working for our team a little over 2 years! At Assisted Living, Jennifer rotated between days, evenings, overnights, and showers, oh my!

When she is not at work, Jennifer is enjoying cuddling her two cats on the couch and watching the latest of what television has to offer. She also enjoys doing arts and crafts projects with her roommate that they use to decorate their apartment!

Jennifer also adds "I like to cook; I always prefer to make something homemade when I can because it always tastes better when you've put a little elbow grease into the dish. Currently diving into the world of bread machines and gluten free yeast baking! I also love to browse the thrift stores for items like my variety of scrubs, and an assortment of unique photo frames and decorations for my apartment!"

"My favorite part about working at Eastern Star is getting to know each of the residents and taking care of them. The more I know about a resident, and their daily routine, the more efficient it helps me become so I can try to incorporate a little extra TLC whenever I can."
